

Operative G T Purdy

Nov. 3rd, 1926

Re: WILLIAM STEVENS

Parker House on Easton Ave.

Operative received instructions to make an investigation at this house in an effort to learn if there were any of the inmates of the home out the night of Sept. 14, 1922.

Operative went to the Parker home and interviewed Mrs. Noble, the lady in charge of this Home. She informs me that all the folks of the house go to bed at 6 P.M. and the latest anyone in the Home is up is 10 P.M. and only the nurses and help are up to that hour. She stated that on the night of the murder all hands in the Home were in bed at 9 P.M. and no one was missing or out that night. The first they heard of the murder was on Saturday morning when the bodies were found.

Mrs. Noble further stated that they often receive mail at this Home for the "Parker House", but she does not know where this place is and that the mail that had been directed that way did not belong to anyone in this Home. She stated that Willie Stevens would know where the Parker Home is would not have to ask anyone for directions to it. Mrs. Noble stated that she knows Mrs. Hall and the Carpenders.

Respectfully submitted:
